PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience specializing in backend development, system design, and mobile application development, with strong proficiency in Node.js, React Native, and Next.js. Experienced in building scalable microservices, RESTful APIs, and high-performance backend systems, along with expertise in database design (SQL/NoSQL), authentication and authorization, API integration, and real-time data processing. Proven ability to design robust, secure, and scalable system architectures while optimizing performance and ensuring reliability. Successfully delivered 10+ production-grade applications, including CRM systems, sales automation platforms, dietitian management solutions, and inventory tracking systems, driving operational efficiency and improved user engagement, with a strong focus on clean architecture, SDLC best practices, and maintainable code.

TECHNICAL SKILLS

Frontend: React.js, React Native, Next.js, Tailwind CSS, Responsive Design, Redux

Backend: Node.js, Express.js, Nest.js, RESTful APIs, Serverless Architecture, Langchain

Database: MySQL, Sequelize ORM, MongoDB, Firestore, Database Design & Optimization

Cloud & Tools: Google Cloud Functions, Git, GitHub, API Integration, System Architecture

PROFESSIONAL EXPERIENCE

Full Stack Developer

Hobit Technology | Jan 2024 - Present

- Architected and developed company's flagship mobile application from scratch using React Native Expo with API-less architecture, reducing server dependencies by 40% and improving app performance by 35%
- Built comprehensive Dietitian CRM managing 50000+ clients, featuring automated appointment scheduling, health data tracking, diet plan management, and intelligent call reminder system
- Designed and implemented Sales CRM for BDA teams, streamlining lead management and improving conversion rates by 25% through automated tracking and analytics
- Built an **AI-powered sales chatbot for WhatsApp and Instagram** using **LangChain and LLMs**, enabling automated lead qualification, customer interaction, and real-time response handling

Full Stack Developer

Indian Robotics Solution | Jan 2023 - Feb 2024

- Led end-to-end development of 5 production applications using React, Node.js, Express, and Nest.js, serving 1000+ users
- Designed and implemented complete system architecture for HR Management System with AI-powered photo-based attendance tracking and automated salary calculation
- Developed Inventory Management ERP with barcode scanning technology for drone parts, reducing stock management time by 60%
- Built a **Drone Repair Tracking System** with **WhatsApp API integration**, enabling customers to track repair status via a web interface while allowing engineers to update real-time status, resulting in a **45% increase in customer satisfaction**

Backend Developer Intern

Quixgo PVT | Oct 2022 - Jan 2023

- Maintained and enhanced backend services using **Node.js, Express, and MySQL with Sequelize ORM** for an e-commerce platform
- Developed and optimized **RESTful APIs for shipping carriers**, improving order processing and delivery workflows
- Integrated and managed **multiple third-party logistics APIs**, ensuring reliable communication between the platform and external shipping services
- Collaborated with the team to troubleshoot issues, improve API performance, and maintain system stability

KEY PROJECTS

Hobfit Mobile App | *Hobit Technology* | [IOS](#) | [Android](#)

- Rebuilt mobile app from ground up using React Native Expo with API-less architecture for offline-first functionality
- Integrated AI-powered Diet Tracker and custom 3D onboarding experience, increasing user engagement by 50%

Drone Service Center Portal | *Indian Robotics Solution* | droneservicecenter.in

- Developed full-stack repair tracking system with customer portal, management dashboard, and technical team interface
- Implemented WhatsApp API for automated repair status notifications and PDF invoice delivery, reducing customer inquiries by 40%

VersusTyping | *Personal Project* | versustyping.netlify.app

- Built interactive typing speed application with React featuring real-time WPM tracking, error highlighting, sound effects, and 5 game modes

EDUCATION

Master of Computer Application (MCA)

Amrita Vishwa Vidyapeetham | Oct 2021 - Oct 2023

Bachelor of Business Administration (BBA) - Finance & Banking

Manav Rachna International University | Aug 2018 - May 2021
